

FARMING EQUIPMENT

GOODHARVEST SPRAYER

This knapsack sprayer is made from high-density polypropylene which is suitable for all spraying purposes e.g. pest control, disinfection, weeds and fertilizing. The sprayer comes standard with a single nozzle, double nozzle and fan-shaped nozzle. The plunger ensures a quick build up to a working pressure of 2.0 ~ 4.0kg/cm². This knapsack is available in 18L and 16L with a standard 58cm lance.
