Hygrotech requires the services of a National Horticulturist / Agriculturist

HYGROTECH'S HISTORY

Hygrotech was founded in 1984 and originated from a company called Roode Lyon which was well known in the vegetable seed and agricultural industries of South Africa. Hygrotech pioneered the development of F1 hybrids in the South African vegetable industry.

Hygrotech offers Vegetable, Grass and Pasture seeds, adjuvants, growth stimulants, seedling systems (seed trays, growing medium and sowing machines), fertilisers, foliar feeds, biological products, plant manipulators and mechanical implements – in short many of the necessities for the modern vegetable farmer, and agriculture in Southern Africa.

Hygrotech is a “one stop” service to more than 4 000 growers throughout South Africa.

MINIMUM REQUIREMENTS

- A relevant tertiary qualification or relevant experience is essential.
- Experience in soil science and plant physiology would be advantageous but not essential.
- Previous experience of at least 5 years, but preferable 10 years would be essential.
- Experience in seed, crop protection etc. would be beneficial.
- Good understanding, experience and knowledge of good agronomic practices.
- Excellent communication and interpersonal skills with growers/farmers.
- Computer literacy is essential with good working knowledge of Microsoft packages.

Hygrotech will offer the successful candidate a market related package and the position will be based at Hygrotech's Head office in Pyramid, Pretoria

Please send your CV to hr@hygrotech.co.za or contact our HR department at +27 (0)12 545 8012

Applications will close on 15 April 2017
