

FOLIFEED

ACTIVE INGREDIENTS / AKTIEWE BESTANDDELE:

Nitrogen / Stikstof (N).....	272 g/kg	Iron / Yster (Fe).....	520 mg/kg
Phosphorus / Fosfor (P).....	43 g/kg	Manganese / Mangaan (Mn).....	300 mg/kg
Potassium / Kalium (K).....	138 g/kg	Zink / Sink (Z).....	360 mg/kg
Magnesium (Mg).....	0.9 g/kg	Copper / Koper (Cu).....	75 mg/kg
		Boron / Boor (B).....	650 mg/kg
		Molybdenum / Molibdeen (Mo).....	70 mg/kg

FERTILIZER GRP 1 MISSTOF

Reg. No. / Nr. K2944

Act No. / Wet Nr. 36 of/van 1947

DIRECTIONS FOR USE

Dissolve 5kg **FOLIFEED** in 500L water and apply as a full cover foliar spray on 1 hectare vegetables, cotton, citrus and agricultural crops during the period of young active growth when the nitrogen requirement is high.

VEGAETABLES AND AGRICULTURAL CROPS:

Apply **FOLIFEED** 2-3 times with 2 weekly intervals, when young plants start to growing actively.

PEACHES AND APRICOTS:

Apply **FOLIFEED** 1 month after bud break and repeat 2 weeks later.

GRAPES AND GUAVAS:

Apply **FOLIFEED** when the shoots are approximately 15cm long and repeat 1 week before flowering.

POST-HARVEST APPLICATION:

Apply **FOLIFEED** immediately after harvest on all deciduous fruit, grapes and guavas.

FOLIFEED is compatible with most fungicides and pesticides except those containing copper, sulphur and alkaline materials.

Apply with a suitable sticker-spreader such as Nu-Film P® (L2980, Act 36/1947) or Nu-Film 17® (L2981, Act 36/1947).

GEBRUIKSAANWYSINGS

Los 5kg **FOLIFEED** op in 500L water en dien toe as 'n volle bedekking blaarbespuiting op 1 hektaar groente, katoen, sitrus en landbougewasse gedurende die jong aktiewe groeistadium wanneer die stikstof behoefte groot is.

GROENTE EN LANDBOUGEWASSE:

Dien **FOLIFEED** 2-3 maal toe met 2 weeklikse intervalle wanneer jong plante aktief begin groei.

PERSKES EN APPELKOSE:

Dien **FOLIFEED** toe 1 maand na blom en herhaal na 2 weke.

DRUIWE EN KOEJAWELS:

Dien **FOLIFEED** toe wanneer lote ongeveer 15cm lank is en herhaal 1 week voor blom.

NA-OES BEHANDELING:

Dien **FOLIFEED** toe onmiddellik na oes op alle sagtevrugte, duiwe en koejawels.

FOLIFEED is verenigbaar met meeste swam- en insekdoders, behalwe die wat koper, swael of alkalise middels bevat..

Gebruik saam met 'n kleef- en verspreidingsmiddel soos Nu-Film P® (L2980, Wet 36/1947) or Nu-Film 17® (L2981, Wet 36/1947).
