

FOSFASPRAY

A WATER SOLUBLE NUTRIENT MIXTURE WITH PHOSPHATE AS THE MAIN COMPONENT. PHOSPHATE PLAYS AN IMPORTANT ROLE IN PHOTOSYNTHESIS AND IS AN IMPORTANT STRUCTURAL COMPONENT OF PLANT CELLS. IT FURTHER STIMULATES ROOT DEVELOPMENT AND THEREFORE WATER AND NUTRIENT UPTAKE.

ACTIVE INGREDIENTS / AKTIEWE BESTANDDELE:

Nitrogen / Stikstof (N)	94	g/kg
Phosphorus / Fosfor (P)	253	g/kg
Potassium / Kalium (K)	51	g/kg

FERTILIZER GRP 1 MISSTOF

Reg. No. / Nr. K2248

Act No. / Wet Nr. 36 of / van 1947

USER DIRECTIONS / GEBRUIKSAANWYSINGS

Dissolve 2.5 – 5 kg of the mixture in 50 – 600 L of water according to method of application. Stir until it is completely dissolved and apply as a full cover spray on 1 ha of vegetables during the winter months when phosphate movement and take-up by the plant is slower and the phosphate requirement high. Use the mixture also at 5 g/L of water in irrigation systems for seedlings and growing plants to replenish the phosphate requirements.

Apply bi-weekly as foliar feeding just before flowering until just after fruit set.

The mixture should not be used with fungicides or insecticides containing copper, sulphur and alkaline materials.

Use a suitable sticker-spreader such as NU-FILM P® (L2980 Act 36 of 1947) or NU-FILM 17® (L2981 Act 36 of 1947).

Los 2.5 – 5 kg van die mengsel op in 50 – 600 L water na gelang van die spuitmetode. Roer tot dit volledig opgelos is en dien toe as 'n volle blaarbedekkingspuit op 1 ha groente in die wintermaande wanneer die fosfaat in die plant stadig beweeg en opgeneem word en die fosfaatbehoefte hoog is.

Gebruik die mengsel ook teen 5 g/L water in besproeiingstelsels vir plantjies en groeiende plante om die fosfaatbehoefte aan te vul.

Dien toe as blaarvoeding net na blomstadium tot net na vrugset op twee-weeklikse basis.

Fosfaspray is nie verenigbaar met swamdoders of insekdoders wat koper, swael of alkalise middels bevat nie.

Gebruik 'n geskikte kleef- en verspreidingsmiddel soos NU-FILM P® (Reg. Nr. L2980 Wet 36 van 1947) of NU-FILM 17® (Reg. No. L2981 Wet 36 van 1947).

PRECAUTIONS / VOORSORGMAATREËLS

Store in a well-sealed container, away from light.

Keep away from children, uninformed people, animals and foodstuffs.

Wash hands after use.

Bêre in 'n verseëlde houer weg van lig.

Hou weg van kinders, oningeligte persone, diere en kos.

Was hande na gebruik.
