

# SUGAR EXPRESS

An Omnipotent Water Soluble Fertilizer Product to aid in Crop Production

## 4 - 4 - 33 (41%)

### GUARANTEED ANALYSIS

NITROGEN (N)	40g/kg
PHOSPHATE (P)	40g/kg
POTASH (K)	330g/kg
Magnesium (Mg)	5g/kg
Sulfur (S)	74g/kg
Boron (B)	200mg/kg
*Copper (Cu) – Chelated Copper	500mg/kg
Iron (Fe) – Chelated Iron	1000mg/kg
*Manganese (Mn) – Chelated Manganese	500mg/kg
Molybdenum (Mo)	10mg/kg
*Zinc (Zn) – Chelated Zinc	500mg/kg

\* Totally chelated by EDTA (Disodium Ethylenediamine Tetra Acetate Chelate)

FERTILISER GRP. 1

NET WEIGHT 10.0 KILOGRAM

Reg. No. K6716

MANUFACTURED AND PACKED IN THE UNITED STATES BY

MILLER CHEMICAL & FERTILIZER CORPORATION

### DIRECTIONS FOR USE

#### APPLICATION TIMING:

Use at the rate of 5 to 10 kg per hectare at 14 days before anticipated harvest date to improve plant sugar development and translocation. Use the higher rate of 10 kg/ha for orchard crops eg. grapes, peaches, plums, cherries, apples, pears, etc. Use the lower rate of 5 Kg/ha for row crops eg. cantaloupes, water-lemons, tomatoes, etc.

#### COMPATIBILITY:

This product is compatible with most pesticides commonly used on vegetables, fruit and agronomic crops.

#### CAUTION:

Do not use with Nu Film P or Nu Film 17, Dormant Oil, Lime Sulfur, Spray Lime, or highly alkaline spray materials. Add product to the spray tank or pre-mix tank when it is about half full and it is not needed to adjust the pH of the spray tank water. Agitation in the tank is preferred to increase the speed of solubility. Where extremely cold water is used, allow a few extra minutes for the product to completely dissolve before spraying.

Use this product in accordance with good agronomic practices, which include utilizing proven spray equipment set for proper coverage. Do not make applications when temperatures are too hot, as crop damage may occur. Application should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired result.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.wa.gov/agr/>

#### Notice of Warranty:

Miller warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Miller. In no case shall Miller be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer.

**MILLER MAKES NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.**
