

SUREBUFF

A water soluble acidifier with buffering properties for use with alkaline-sensitive agricultural chemicals.

'n Wateroplosbare versuurder met buffereienskappe vir gebruik saam met alkalies-sensitiewe landbouchemikalieë.

ACTIVE INGREDIENT / AKTIEWE BESTANDEEL:

Acidifier, Buffer / Versuurder, Buffer..... 480 g/L

Reg. No. / Nr. L6539

Act No 36 of 1947 / Wet No 36 van 1947

WARNINGS

- Observe warnings that apply to the product with which **SUREBUFF** is to be used.
- Store away from food and animal feed.
- Keep out of reach of children, animals and uninformed persons.

Although this product has been extensively tested under a wide variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions, the quality of dilution water, compatibility with other substances not indicated on the label, the occurrence of resistance of the disease to the product concerned as well as by the method, time and accuracy of the application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment, harm to man or animal or for the lack of performance of the remedy concerned due to failure of the user to follow the label instructions, or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

- Avoid prolonged contact with concentrate.
- Wash affected area with soap and water.
- In case of contact with eyes, immediately flush with water for 10 minutes.
- Prevent contamination of eating utensils, food, drinking water and animal feed.

DIRECTIONS FOR USE

USE ONLY AS DIRECTED

- Mix **SUREBUFF** thoroughly with the water in the spray tank prior to adding the pesticide or herbicide.
- Use **SUREBUFF** at 50 – 100 ml / 100 L spray mix. Use the higher rate in exceptional conditions, where water is known to be difficult to buffer.

• **SUREBUFF** contains a buffer that will rectify and sustain the pH of the spray mixture to an acceptable level.

• In the majority of situations the addition of **SUREBUFF** to the spray tank will result in a pH of 4.5 – 6.0.

WAARSKUWING

- Let op waarskuwings soos aangebring op die etiket van die produk wat in kombinasie met **SUREBUFF** toegedien word.
- Bêre weg van voedsel en voer.
- Hou buite bereik van kinders, diere en oningeligte persone.

Alhoewel hierdie middel onder 'n groot verskeidenheid van toestande getoets is, waarborg die registrasiehouer nie dat dit onder alle toestande doeltreffend sal wees nie, aangesien die werking en effek daarvan beïnvloed kan word deur faktore soos abnormale klimaats- en bergingstoestande, kwaliteit van verdunningswater, verenigbaarheid met ander stowwe wat nie op die etiket voorkom nie, die bestaan van weerstand by die organisme teenoor die betrokke produk sowel as die metode, tyd en akkuraatheid van toediening. Verder aanvaar die registrasiehouer geen verantwoordelikheid vir skade aan gewasse, plantegroei, die omgewing of skade aan mens, dier of gebrek aan prestasie van die betrokke middel as gevolg van die versuim van die gebruiker om etiket aanwysings na te kom of as gevolg van die ontstaan van toestande wat nie kragtens die registrasie voorsien kon word nie. Raadpleeg die verskaffer in die geval van enige onsekerheid.

VOORSORGMAATREëLS

- Vermyn langdurige kontak met die konsentraat.
- In geval van kontak, was met seep en water.
- In die geval van kontak met oë, spoel onmiddellik vir 10 minute met water.
- Voorkom besoedeling van eetgerei, voedsel, drinkwater en voer.

GEBRUIKSAANWYSINGS

GEBRUIK SLEGS SOOS AANGEDUI

- Meng **SUREBUFF** deeglik met die water in die spuittenk voordat die plaagdoder of onkruidodder bygevoeg word.
- Gebruik **SUREBUFF** teen 50 - 100 ml / 100 L spuitmengsel. Gebruik die hoër dosis in uitsonderlike gevalle waar probleme ondervind word met water wat moeilik buffer.

• **SUREBUFF** bevat 'n buffer en sal die pH van 'n spuitoplossing aanpas en handhaaf by 'n aanvaarbare vlak.

• In die meeste gevalle behoort die byvoeging van **SUREBUFF** teen die aanbevole dosis by die spuitmengsel, 'n pH van tussen 4.5 – 6.0 tot gevolg hê.
