

Tomato | Determinate Saladette

Xaman F1

Xaman F1 | Main-Season Tomato

Xaman F1 is an early maturing determinate hybrid tomato that is of fresh market with a saladette fruit type. It is a high-performance plant that produces big deep red colour fruits with smooth shoulders and wide adaptability to areas with viral diseases.

Specifications:

Advantages

- Better yield, and big fruits (140 -160g)
- Excellent fruits and great fruit shape
- Quick to mature for market.
- Able to grow in TSWV (Tomato spotted wilt Virus) and TYLCV (Tomato yellow leaf curl virus) infected areas.

Benefits

- Less production cost and opportunity to enter the market early.
- Less pesticide application
- High yields even under high disease pressure
- Disease resistance serves as risk reducing measure.
